

Małgorzata *Staszewska*

DESIGNER & FRONT-END DEVELOPER

I am a Front-End Developer and Graphic Designer with a unique combination of technical and artistic experience. My journey with computer graphics began in 2011 – since then, I have been developing my sense of aesthetics by creating visually refined designs. Since 2019, I have been involved in programming, focusing on building modern, intuitive web applications. I bridge the worlds of design and code, ensuring both visual consistency and performance in the solutions I create.

Outside of coding, I enjoy hands-on and creative activities such as woodworking, sewing, embroidery, and DIY projects – all of which sharpen my attention to detail and patience. I'm also passionate about diving and boxing, which help me stay focused and disciplined. In my free time, I enjoy solving puzzles, watching films, and exploring architecture – always looking for structure, patterns, and inspiration.

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the European Parliament's and Council of the European Union Regulation on the Protection of Natural Persons as of 27 April 2016, with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC.
